21 June 1962

MEMORANDUM FOR: Executive Assistant to the DDCI

SUBJECT: [redacted] 25X1A5a1

1. I have checked this material out with OSI and DPD, and in brief, there is no particular interest at this time.

2. For the most part, various external research programs for the next fiscal year have been shaped up in the various important areas though there may arise occasions when it may be good to talk to personnel of such companies as this in important areas of research.

3. Some of the biographic sketches are interesting, but I have been advised that in general they show no unusual personal resources. Also, there is no information provided on the research and development facilities of this company, thus no further meaningful comment can actually be made.

4. Perhaps General Carter can simply respond to the effect that we are always interested in having good relations with various commercial concerns, and that we would be pleased to receive more information concerning their facilities and capabilities; and as our programs develop during the year we may have occasions to desire further discussions.
